

PRODESIGN

SUSTAINABILITY & MEP ENGINEERS

Your first choice engineering partner

Join us as a BIM MANAGER

Are you a seasoned BIM professional with a passion for strategic planning, team management, and engaging with a diverse range of stakeholders?

We invite you to be part of our dynamic team at Prodesign where you can spearhead the transformation of our BIM strategies and projects through innovation and leadership.

ROLE

As a BIM Manager, you will be at the forefront of transforming project coordination through effective BIM strategies and methodologies.

PROFILE

- Bachelor's degree in Engineering or related field.
- Proven experience and expertise in implementing BIM strategies and methodologies.
- Strong proficiency in BIM tools and software such as Revit, Navisworks, AutoCAD, etc.
- In-depth understanding of BIM standards, protocols, and industry best practices.
- Demonstrated ability to lead and coordinate BIM efforts within a collaborative team environment.
- Excellent communication, collaboration, and problem-solving skills.
- Previous experience in managing and supervising BIM teams is highly advantageous.
- A proactive approach to continuous learning and staying updated with evolving BIM technologies and trends.

DUTIES

- BIM Coordination and Modelling
 - Oversee all duties listed under the BIM Coordinator role, including managing BIM libraries, facilitating the integration of all project data into the BIM model, resolving clashes or conflicts within the BIM model, and conducting regular quality checks on BIM models.

- CDE Management and Research:
 - Research, select and implement suitable Common Data Environment (CDE) systems for managing project information.
 - Manage the deployment, utilization, and effective functioning of the CDE system across all projects including the preparation of the BEP Plan.
 - Train BIM Coordinators and BIM Modellers in the usage of the CDE, ensuring its efficient usage.
- BIM Strategy Development and Implementation:
 - Develop and implement a strategic BIM management plan for the company, incorporating the latest industry standards and trends.
 - Oversee the BIM execution planning for each project, ensuring alignment with the strategic BIM management plan.
- Training and Professional Development:
 - Conduct advanced BIM-related training and professional development programs for staff members.
 - Ensure a minimum attendance of 80% in all company-provided training sessions.
- Supervision and Team Management:
 - Supervise and guide the BIM Coordinators and BIM Modellers, ensuring high-quality output and adherence to project timelines.
 - Provide constructive feedback to improve the performance of the team and foster a collaborative working environment.
- Collaboration and Stakeholder Engagement:
 - Foster effective collaboration between different design teams, consultants, and stakeholders for all BIM-related matters.
 - Represent the company in external forums and meetings on BIM-related topics.

Interested candidates are requested to send their CV and **copies of all certificates** on admin@prodesign.mu by latest **15 October 2023**.

Candidates are requested to highlight their experience in relation to the duties to be performed in our company.

- The company reserves the right to call only the best qualified candidates for the selection exercises.
- The company also reserves the right not to proceed with the vacancies.
