

Join us as a **SITE QUALITY CONTROLLER**

Join our dynamic team at Prodesign as we elevate building designs with innovative MEP systems!

Looking for a detail-oriented Site Quality Controller to ensure impeccable on-site execution. If you're keen on supervising, testing, and commissioning, and making a mark in the construction industry, then write to us.

ROLE

As a Site Quality Coordinator, you will play a pivotal role in overseeing MEP contract administration, perform quality control, coordination, safety compliance, commissioning, and post-construction support.

PROFILE

- Minimum “Brevet de Technicien” or Diplôme universitaire supérieur de technologie or equivalent.
- Familiarity with MEP systems, construction processes, and industry standards.
- Good communication and interpersonal skills, enabling effective collaboration with project stakeholders.
- Detail-oriented with a keen eye for quality control and compliance with design specifications.
- Commitment to safety protocols and standards specific to MEP systems.
- A proactive approach to problem-solving and a team player mindset.
- Previous experience in MEP construction administration and coordination is highly advantageous.

DUTIES

- **Quality Assurance Oversight:** Conduct and manage quality checks on site works, ensuring adherence to quality standards.
- **Project Documentation and Compliance:** Oversee all project documentation related to quality standards and compliance.

- **Quality Reporting and Analysis:** Generate regular quality reports, analyzing trends and identifying areas for improvement. Provide insights and recommendations to enhance the overall quality of the project.
- **Site Inspections and Audits:** Regularly inspect and audit site works to ensure compliance with established quality standards. Identify non-conformities and work with teams to address and rectify issues promptly.
- **Client and Stakeholder Communication:** Communicate quality-related updates to clients and stakeholders. Address inquiries and concerns regarding quality aspects and maintain positive relationships to ensure satisfaction and project success.
- **Coordination and Collaboration:** Collaborate with internal teams to integrate quality considerations into project plans and execution. Ensure that quality requirements are met throughout the project lifecycle.
- **Site Supervision and Client Meetings:** Regularly attend site visits and meetings to oversee design implementation. Make key on-site decisions and ensure alignment with client expectations and project goals.
- **Contract Administration Leadership:** Manage contract administration, including tracking progress and compliance. Handle contract-related issues, ensuring resolutions that align with company interests.
- **Testing and Commissioning Leadership:** Oversee the testing and commissioning processes at the site. Ensure all systems function as designed and address any issues promptly.

Interested candidates are requested to send their CV and **copies of all certificates** on admin@prodesign.mu by latest **31 July 2024**.

Candidates are requested to highlight their experience in relation to the duties to be performed in our company.
